- You will be seen by a fully qualified therapist who will be appropriately insured and registered with their professional body.
- Please do not hesitate to ask the therapist to stop the treatment and explain anything he/she says or does at any time during your appointment.
- The therapist needs to know about your health, past and present, and you will be asked detailed questions about your complaint, medical history, general health and any medication you may be taking.
- You may be asked to perform simple movements to help the therapist understand and assess your condition and further examination will be conducted while you lie on the examination couch. The therapist may also test reflexes, joint mobility and muscle strength where appropriate.
- After treatment, advice will be given regarding your condition.
- You may feel uncomfortable for the first 24 hours or so after treatment, please feel free to ring and talk to the therapist if you need to.
- It may take several treatments before your condition is relieved.
